Channel Wire Wrapping for Glass Cabochons

Learn another great alternative for displaying and wearing your fused-glass cabochons, especially those transparent ones!! This class is designed to cover a simpler, cleaner-lined wire wrapping, to enhance your fused glass. We'll cover the basics of wire wrapping within a channel on your glass pieces, adding a bail made from wire, and different ways to embellish your pieces. To save class time, you'll need to bring a finished 1"x1.5" (approx.) cabochon from home, with a jewelry channel already ground into the sides. It's best if you can fire-polish your piece after the grinding, or use some clear nail polish to help hide any grinder marks (see Coral about using classroom equipment to do your grinding, or for any other questions). (If you don't have a glass cabochon, one can be purchased at Full Spectrum.)
